Professional Summary

Experienced Full-Stack Developer with over 11 years of expertise, primarily focused on backend development using PHP and Laravel. While highly specialized in backend architecture, RESTful APIs, Microservices, and cloud infrastructure (AWS), also bring solid front-end development experience with Angular, Vue.js, and Bootstrap. Skilled in Docker, CI/CD pipelines, and modern software engineering practices including TDD, SOLID principles, and scalable architecture. Passionate about clean code, performance optimization, and delivering production-ready solutions in agile, collaborative teams. Open to both backend and full-stack opportunities.

Technical Skills

Languages & Frameworks: PHP, Laravel, CodeIgniter, JavaScript, TypeScript, Node.js

Frontend: Angular, Vue.js, Bootstrap, CSS/SASS, Ionic, NativeScript, React.js (Learning)

Databases: MySQL, MongoDB, DynamoDB

Tools & Platforms: Docker, Git, Redis, RabbitMQ, AWS, CI/CD

Testing & Architecture: TDD, SOLID, Design Patterns, Microservices

Professional Experience

Senior PHP Developer — Innovation, Remote

Jul 2024 – Apr 2025

- Refactored legacy PHP/Laravel applications to improve code maintainability, reduce technical debt, and enhance performance.
- Dockerized legacy services to streamline development workflows and improve environment consistency across local, staging, and production.
- Implemented unit tests using PHPUnit to increase test coverage, improve reliability, and support CI/CD pipelines.
- Solved complex backend challenges and optimized system performance.

Tech Stack: Laravel 11, PHP 8.3, MySQL, Docker, React.js, GitHub Actions, Redis, AWS EC2, S3.

Senior PHP Developer — Hich, Remote

Jul 2023 – May 2024

- Built a Survey Platform from scratch using Laravel.
- Designed RESTful APIs for performance and scalability.

- Containerized the application with Docker.
- Developed CI/CD pipelines to automate testing and deployment.
- Wrote comprehensive technical documentation.

Tech Stack: Laravel 10, PHP 8, MySQL, Docker, CI/CD Pipelines, AWS EC2, Swagger.

Senior PHP Developer — SnappShop, Tehran

Jul 2022 – Jun 2023

- Developed scalable backend solutions for Iran's second-largest e-commerce platform.
- Built a centralized notification service for system-wide messaging.
- Used Docker and Kubernetes for deployment and scalability.
- Wrote clear technical documentation for services.

Tech Stack: Laravel, PHP 8, Pest, CI/CD, MySQL, Docker, Rabbitmq, Sentry, Microservice, Redis, K8, Vue.js, Swagger.

Senior PHP Developer — Nik Andish, Tehran

Apr 2022 – Jul 2022

- Delivered robust APIs for Laravel-based applications.
- Wrote unit and feature tests to ensure code quality.
- Translated business requirements into technical specifications.
- Collaborated with cross-functional teams to improve workflows.

Tech Stack: Laravel, PHP 8, MySQL, PostgreSQL, Sentry, Docker, Swagger.

Senior PHP Developer — Infinite8, Remote

Jun 2020 – Apr 2022

- Built a modern, microservices-based platform to replace legacy systems.
- Deployed services on AWS using serverless architecture.
- Created reusable Laravel packages for common functionality.

Tech Stack: PHP 7.4, Laravel (Lumen), Swoole, Elasticsearch, Logstash, Redis, Sentry, Unit Tests, Docker, MySQL, MongoDB, RabbitMq, React.js, jQuery, Kafka, Amazon: Cognito, DynamoDB, SQS, SNS, S3, RDS, Cognito, IAM, Serverless computing, Swagger.

Full-stack PHP Developer — ParsPack, Tehran

Oct 2017 – Jun 2020

- Developed backend services with Laravel for web/mobile apps.
- Built responsive interfaces using Angular.
- Developed cross-platform mobile apps using NativeScript and Flutter.

Tech Stack: PHP, Laravel, MySQL, MongoDB, Docker, Angular, NativeScript, TypeScript, Ionic, Express.js, Node.js, Flutter, Wordpress, WHMCS, Prometheus, Grafana, K8.

Full-stack PHP Developer — InnoTech, Tehran

May 2017 – Jun 2020

- Created new projects using Angular and Ionic.
- Maintained legacy systems with Laravel.
- Built REST APIs for web and mobile integration.

Tech Stack: PHP, Laravel, MySQL, Angular, TypeScript, Ionic, Node.js, Chrome Extension, Swagger.

Full-stack PHP Developer — Armanic, Tehran

Jun 2015 – May 2017

- Led development of a custom CMS and e-commerce platform.
- Used CodeIgniter for full-featured backend systems.
- Created responsive frontends using Bootstrap and WordPress.

Tech Stack: PHP, MySQL, CodeIgniter, Wordpress, Bootstrap, jQuery.

Full-stack PHP Developer — Adak Fanavari Mania, Tehran

Apr 2014 – Jun 2015

- Maintained legacy PHP systems and developed new features.
- Built responsive HTML/CSS templates from PSD designs.
- Improved SEO to boost website visibility on Google.

Tech Stack: PHP, MySQL, CodeIgniter, Bootstrap, jQuery.

Education

Bachelor's Degree in IT, Elmi Karbordi, Tehran — Jan 2018 – Jan 2020

Associate Degree in Software Engineering, Elmi Karbordi, Tehran — Sep 2014 – Jan 2017

Languages

Persian (Native), English (B2), Azerbaijani (Fluent)

Interests

Football, Bodybuilding, Movies, Sitcoms, Video Games
